

**Child Abuse
Investigation**

When a representative of the Department of Family and Protective Services or another lawful authority requests to question or interview a student at school as part of a child abuse investigation, the principal shall cooperate fully with the official's requests regarding the conditions of the interview or questioning.

**Other Questioning of
Students**

When law enforcement officers or other lawful authorities request to question or interview a student at school for any purpose other than a child abuse investigation, the following guidelines shall apply:

1. The principal shall verify and record the identity of the officer or other authority and request an explanation of the need to question or interview the student at school.
2. The principal shall notify the student's parent or other person having lawful control of the student unless the interviewer provides information that establishes that there is a significant risk of imminent danger to the student, other students or staff, or the campus as a whole.
3. If the student's parent or other person having lawful control of the student are unable to attend, the principal or a designee shall be present during the questioning or interview.

**Students Taken into
Custody**

Before a student at school is arrested or taken into custody by a law enforcement officer or other legally authorized person, the principal shall verify the official's identity. To the best of his or her ability, the principal shall verify the official's authority to take custody of the student and then shall deliver over the student.

The principal shall immediately notify the Superintendent and ordinarily shall notify the parent or other person having lawful control of the student. If the officer or other authorized person raises what the principal considers to be a valid objection to notifying the parent at that time, the principal shall not notify the parent.
