

The District shall, within the limits of space and resources, provide lifelong learning opportunities for people of all ages, backgrounds, and needs.

In order to plan and implement a community education program, the community education coordinator shall:

1. Make school facilities available for citizen use for academic, cultural, recreation, social, and enrichment endeavors.
2. Organize the participation of citizens in the community in assessing local conditions, setting priorities, and program planning.
3. Coordinate and facilitate joint planning by local agencies, institutions, and organizations.
4. Initiate new and improved educational programming for all age levels based on needs determined by a representative group of community citizens.

The coordinator shall report periodically to the administration and to the Boards of the District and Blinn College regarding community education programs and effectiveness.
