**School Start Date**

A district may not begin instruction for students for a school year before the fourth Monday in August unless the district operates a year-round system (see below). A district may not receive a waiver of this requirement.

Exceptions

A district that does not offer each grade level from kindergarten through grade 12 and whose prospective or former students generally attend school in another state for the grade levels the district does not offer may instead start school on any date permitted under the law of the other state.

A district with a student enrollment of 190,000 or more may begin instruction for students for a school year on or after the first Monday in August at a campus or at not more than 20 percent of the campuses in the district if:

1. The district at the beginning of the school year provides, financed with local funds, days of instruction for students at the campus or at each of the multiple campuses, in addition to the minimum number of days of instruction required under Education Code 25.081;
2. The campus or each of the multiple campuses are undergoing comprehensive reform, as determined by the board; and
3. A majority of the students at the campus or at each of the multiple campuses are educationally disadvantaged.

*Education Code 25.0811*

**Length of School Year**

Each school year, a district shall operate for at least 75,600 minutes, including time allocated for instruction, intermissions, and recesses for students.

Exceptions

The commissioner may approve the operation of schools for fewer than the number of minutes specified above when disaster, flood, extreme weather conditions, fuel curtailments, or other calamities have caused the closing of schools.

If the commissioner does not approve reduced operation time, a district may add additional minutes to the end of the district's normal school hours as necessary to compensate for minutes lost due to school closures caused by disaster, flood, extreme weather conditions, fuel curtailment, or another calamity.
