

The College District is dedicated to meeting the needs of its residents for education and training beyond the high school level.

**Lower Division  
College Education**

The College District shall offer courses that are designed to enable students, including those who enter with scholastic deficiencies, to complete the first two years of four-year college work and to enter a four-year institution.

**Career and Technical  
Education and  
Training**

The College District shall monitor the occupational training needs of the local area and the communities it serves and shall develop and offer courses that are designed to equip students; through non-degree seeking programs, certificates, and Associate degree programs; with the skills and technical knowledge required for successful employment in occupational fields.
