

The Board shall establish graduation requirements in a manner consistent with applicable law. The College District catalog shall address the degrees and certificates, the semester credit hours or continuing education units, and other requirements that must be satisfied to obtain each degree or certificate awarded by the College District.

To be eligible for graduation, a student must meet the degree requirements established by the College President and published in the College District catalog.

The College District may graduate current and former students who have met the graduation requirements without the students' consent.
