**Military and Naval  
Training**

The governing board of any state-supported institution of higher education, including a college district, may request the U.S. Department of Defense to establish and maintain courses in military and naval training qualifying male student graduates of the courses for reserve commission awards as a part of its curriculum. The board may enter into mutually agreeable contracts for that purpose. The work of the students enrolling in the courses may be credited toward degree requirements under regulations prescribed by the board. *Education Code 51.304*

**Intergovernmental  
Support Agreements  
with U.S. Armed  
Forces**

In accordance with the provisions that apply to an interlocal contract under Government Code Chapter 791, a local government, including a college district, may enter into an intergovernmental support agreement with a branch of the armed forces of the United States under the National Defense Authorization Act, 10 U.S.C. 2679, to provide installation-support services to a military installation located in this state.

The term "installation-support services" means those services, supplies, resources, and support typically provided by a local government for its own needs and without regard to whether such services, supplies, resources, and support are provided to its residents generally, except that the term does not include security guard or fire-fighting functions.
