

Agreement Between Districts	The board may, by means of a mutual agreement with the board of an adjoining district, transfer any student to the jurisdiction of that adjoining district. All transfers shall be made pursuant to the requirements of Education Code 25.032 through 25.034. The board, together with the board of the adjoining district, shall agree to the transfer of school funds proportionate to the transfer of attendance when such interdistrict transfers are made. <i>Education Code 25.035</i>
Initiated by Student or Parent	Any student, other than a high school graduate, who is under 21 years of age and eligible for enrollment on September 1, may transfer to another Texas district, provided that both the receiving district and the applicant's parent, guardian, or person having lawful control agree in writing to the transfer. <i>Education Code 25.036</i> [See also FD]
Basis for Transfer	The board or its designee must make transfer decisions on an individual basis and may not consider as a factor in arriving at any decision regarding assignments any matter relating to the national origin of the student or the student's ancestral language. <i>Education Code 25.032</i> [See FDAA]
Funding for Transfers	Upon the filing and certification of any transfer, the state per capita apportionment shall transfer with the student. For purposes of computing state allotments to districts eligible under the Foundation School Program, the student's attendance prior to the date of transfer shall be counted by the sending district and the student's attendance after transfer shall be counted by the receiving district. <i>Education Code 25.037</i>
Transfers to Adjoining States	Any student who would be entitled to attend the public school of any district situated on the border of Louisiana, Arkansas, Oklahoma, or New Mexico and who may find it more convenient to attend the public school in a district in one of those contiguous states, may have the state and county per capita apportionment of the available school funds paid to the school district of the contiguous state and may have additional tuition, if necessary, paid by the district on such terms as may be agreed upon by the trustees of the receiving district and the trustees of the district. <i>Education Code 25.040</i>
Tuition	The district may charge a tuition fee to the extent that the district's actual expenditure per student in average daily attendance exceeds the sum of state available school fund apportionment benefits transferred to the district under Education Code 25.037. However, unless a tuition fee is prescribed and set out in a transfer agreement prior to its execution by the parties, no increase in tuition charge shall be made for the year of that transfer that exceeds the tuition charge, if any, of the preceding school year. <i>Education Code 25.038</i>

Tuition for
Education Outside
District

Home districts that do not offer each grade, kindergarten–grade 12, shall pay tuition to the district if they have a contract to educate students in grades not taught in the home district. If the home district has contracted for students to attend another district(s), it shall not be required to pay tuition to any district with which it has not contracted. A contract under this section may not be for a period exceeding five years.

The amount of tuition paid may not exceed the greater of:

1. The amount by which the district's actual expenditure per student in average daily attendance exceeds the sum the district receives from state aid sources, as provided by Education Code 25.037. However, the district may not charge more than the tuition charge for the preceding school year unless a tuition fee is set out in a transfer agreement; or
2. The calculated tuition limit specified by commissioner's rule.

Under the commissioner's rule, tuition charged to the home district for a transfer student in payment for that student's education may not exceed the district's calculated tuition limit. The calculated tuition limit applies only to tuition paid to the district for the education of a student at a grade level not offered in the home district.

The calculated tuition limit is the sum of the excess maintenance and operations (M&O) revenue per enrollee and the excess debt revenue per enrollee as calculated in accordance with 19 Administrative Code 61.1012(b).
