**Branch Campuses,
Centers, Extension
Facilities**

The board of trustees of a junior college district may establish and operate branch campuses, centers, or extension facilities within the junior college district's service area provided that each branch campus, center, or extension facility, and each course or program offered in such locations, is subject to the prior and continuing approval of the Coordinating Board.

Before any course may be offered by a public junior college within the service area of another operating public junior college, it must be established that the second public junior college is not capable of or is unable to offer the course. After the need is established and the course is not locally available, then the first public junior college may offer the course when approval is granted by the Coordinating Board. This restriction does not apply to a course offered by a public junior college with a service area located wholly or partly in a county with a population of more than three million for high school students enrolled in a school district located wholly or partly in a county with a population of more than three million.

Notwithstanding Education Code, Chapter 130, Subchapter J [regarding junior college district service areas], the service area of a junior college district does not include territory within the boundaries of the taxing district of another junior college district. If a branch campus, center, or extension facility operated by a junior college district outside its taxing district becomes located within the taxing district of another junior college district when the other district is established or annexes the territory that includes the campus, center, or facility, the junior college district operating the campus, center, or facility must discontinue the campus, center, or facility within a reasonable period, not to exceed one academic year. The junior college district in which the campus, center, or facility is located must fairly compensate the junior college district that discontinues the campus, center, or facility for any capital improvements that the discontinuing district acquired or constructed for the campus, center, or facility, to the extent the discontinuing district is otherwise unable to recover the current value of its investment in that capital improvement, as determined by the Coordinating Board.
