

**Vehicle Permit**

A request for a vehicle permit must include the driver's license number and proof of motor vehicle insurance.

If parking permits are not being issued in any given school year to employees, employees who park their personal vehicles on District property are required to carry the minimum insurance prescribed by law.

Students and employees may park only in designated parking lots.

The District does not accept responsibility for any damage to cars parked or operated on school property.

Damage that occurs on District property to an employee's vehicle must be reported by the employee to the Alief Police Department.
