

The parents, the Board, the administration, and the faculty of the District are dedicated to enabling students to become creative, successful, and productive members of society.

Our purpose is to provide an educational setting that is conducive to maximum intellectual, physical, social, and emotional growth. Within this setting, the student has an opportunity to develop skills, responsibility, respect, aptitudes, abilities, and concepts appropriate to a successful place in society.

The parents, the District, and the community share the responsibility of motivating students to maximize their individual potential.
