

Safety Standards

A district shall meet or exceed the safety standards for school buses established by the Department of Public Safety (DPS), with the advice of the Texas Education Agency (TEA). A district that fails or refuses to meet these safety standards for school buses is ineligible to share in the transportation allotment until the first anniversary of the date the district begins complying with the safety standards. *Education Code 34.002; Transp. This requirement does not apply to:

**School Bus
Emergency
Evacuation Training**

Pursuant to the safety standards established by DPS under Education Code 34.002, each school district may conduct a training session for students and teachers concerning procedures for evacuating a school bus during an emergency. A district that chooses to conduct a training session is encouraged to conduct the school bus emergency evacuation training session in the fall of the school year. "Fall" is defined as July 1 to December 31. The district is also encouraged to structure the training session so that the session applies to school bus passengers, a portion of the session occurs on a school bus, and the session lasts for at least one hour.

The training must be based on the recommendations of the most recent edition of the National School Transportation Specifications and Procedures, as adopted by the National Congress on School Transportation, or a similar school transportation safety manual.

Immediately before each field trip involving transportation by school bus, a district is encouraged to review school bus emergency evacuation procedures with the school bus passengers, including a demonstration of the school bus emergency exits and the safe manner to exit.

Not later than the 30th day after the date that a school district completes a training session, the district shall provide DPS with a record certifying the district's completion of the training.
