

**Student Teachers**

The campus principal will review qualifications of student teachers. Placement of all student teachers will be approved by the Superintendent or designee and the principal of the school to which the student teacher is to be assigned.

Student teachers who fail to abide by District policies, rules, and administrative regulations may be dismissed by the Superintendent at any time during the course of the teacher education program.

The person in charge of the teacher education program will coordinate this program with institutions of higher learning and will be responsible, in a joint effort with such institutions, for professional development programs for the student teachers. All contracts for such programs must be signed by the Superintendent.
